"We think that Mr. White combines in larger proportion than any other editor with whose labors we are acquainted, those qualifications essential for a perfect editor of Shakspeare. * * * Each play is preceded by an Introduction, remarkably well digested and condensed, giving an account of the text, and of the sources from which Shakspeare helped himself to plots or incidents. * * * After such conscientious examination of his work as the importance of it demands, after a painful comparison, note by note, and reading by reading, of his edition with those of Messrs. Knight, Collier, and Dyce, our opinion of his ability and fitness for his task has been heightened and confirmed. * * * And we repeat our honest persuasion, that Mr. White has thus far given us the best extant text, while the fulness of his notes gives his edition almost the value of a *variorum*."—*James Russell Lowell.*
